Neo-Aristotelian Perspectives on Formal Causation

Edited by **Ludger Jansen** and **Petter Sandstad**

Series: Routledge Studies in Metaphysics

This is the first volume of essays devoted to Aristotelian formal causation and its relevance for contemporary metaphysics and philosophy of science. The book traces the historical development of formal causation and demonstrates its relevance for contemporary issues, such as causation, explanation, laws of nature, functions, essence, modality, and metaphysical grounding. It will be of interest to advanced graduate students and researchers working on contemporary Aristotelian approaches to metaphysics and philosophy of science.
